Tools: Jira Service Management (lab), PowerShell, VirtualBox, AnyDesk, Chrome Remote Desktop, Microsoft Excel, eBay & Amazon Seller Central, ChatGPT, Gemini

CERTIFICATIONS

CompTIA Network+ (2025) | CompTIA Security+ (2026)

PROFESSIONAL EXPERIENCE

IT Support Specialist (Part-time) | SemSwitch, Inc. | Dallas, TX / Remote **Nov 2025 - Present**

- Deployed and maintain the company's Wi-Fi 6 mesh network; configured QoS and DNS, and troubleshoot coverage and connectivity issues.
- Perform QA testing on the company website and live AI chat assistant, identifying UI bugs and broken features and documenting them for the founder with screenshots and notes.
- Test the AI chat assistant with real customer scenarios, flagging inaccurate or unclear responses so the founder can refine its answers.

Store Operations & IT Support (Full-time) | Uptown Vape Shop | Arlington, TX **Jan 2022 - Oct 2023**

- Managed day-to-day store operations and customer service, including sales, returns, cash handling, and end-of-day till reconciliation, plus inventory counts and purchase orders in Lightspeed POS.
- Served as the store's go-to IT resource: configured the AT&T Wi-Fi network, deployed Blink security cameras, and troubleshot Windows PCs, Lightspeed POS, receipt printers, and network issues to keep checkout running.
- Trained 3 new hires on POS workflows and first-line troubleshooting; escalated hardware and software issues to vendors when outside support was needed.

Customer Support & E-Commerce Operations | HH Commerce LLC | DFW / Remote **Sep 2017 - Dec 2020**

- Managed listings, orders, and inventory for a multichannel electronics resale business (eBay, Amazon, and wholesale bulk buyers) generating $300K+ in eBay sales alone.
- Handled customer messages across eBay, Amazon, and OfferUp on order status, shipping, product condition, offers, and returns, and negotiated deals daily with local buyers and sellers, maintaining a 99% positive feedback rating.
- Ran diagnostic and quality checks on open-box and used computers, phones, and electronics to catch defects before they reached customers.
- Supported the business's workstations, shipping-label printers, and internet, and maintained Excel trackers for inventory, shipping costs, fees, and profit.

PROJECTS & HANDS-ON PRACTICE

Active Directory & Windows Support Lab

- Built a Windows Server domain environment in VirtualBox with Windows 10 clients; administered OUs, users, groups, and permissions, resolved simulated lockouts and password resets, and verified changes with PowerShell.

Help Desk Ticketing Practice - Jira

- Worked an account-lockout ticket end to end in Jira Service Management, from intake and impact assessment through troubleshooting, user updates, resolution, and closure.

Home Network Deployment & IoT Troubleshooting

- Planned and deployed a two-node Wi-Fi 6 mesh supporting 35–40 wired, wireless, and IoT devices; configured AT&T gateway IP passthrough, QoS, and Cloudflare DNS, and fixed intermittent coverage drops by optimizing node placement.

Custom PC Builds

- Built and upgraded custom PCs, tuning BIOS/UEFI settings (XMP memory profiles, fan curves) and installing Windows and drivers.

EDUCATION

High School Diploma | Colleyville Heritage High School, Colleyville, TX | 2013
